DATE OF INFO. [REDACTED]

SUPPLEMENT TO REPORT NO. [REDACTED]

- 25X1X
1. It has been proposed that Braila be made a metallurgical industrial center. The first step would be the construction of a large metallurgical plant which would treat the minerals which come from the Soviet Union by boat. The electrical power for this project would be furnished by the hydroelectric plant at Bicaz (in Moldavia) which is under construction now.
  2. A transporter bridge with a 400 meter span has been ordered from the Soviet Union. This bridge is to be used in the construction of the Bicaz dam in Moldavia. The Rumanian Government has paid one milliard lei for this project.
  3. During the first part of May 1951 different bridge parts for this project were to be sent from Eastern Germany.
